

Pharmacy & Therapeutics Committee

DID YOU KNOW?

Pharmacists are key members of a hospital's Pharmacy and Therapeutics Committee.

Other names for this committee:

- P & T Committee
- Formulary Committee
- Drugs and Therapeutics Committee
- Paramedical Committee
- Pharmacy Therapeutics and Nutritional Support Committee

As members of this committee, pharmacists help to make decisions about what medications should be available in the hospital by:

- researching and presenting information about:
 - evidence supporting the use of different medications
 - medication safety and efficacy
 - cost
- developing and conducting programs to evaluate medication use in the hospital
