

# A DYNAMIC SUMMER INTERNSHIP AT CSHP

## JACKSON STEWART

3rd year pharmacy student | University of British  
Columbia | Summer 2016

If you are a student interested in becoming a hospital pharmacist, CSHP supportership is absolutely invaluable. Through CSHP, I have had the opportunity to network and meet with clinical pharmacists in the acute care setting, through whom shadowing and research opportunities have been revealed to me. Without CSHP, I would not have had such an extensive opportunity to learn about hospital practice early in my degree and discover the pros and cons of the career.

As a student, CSHP is a window into the challenging but exciting career of hospital practice that allows me to connect with passionate and outstanding pharmacists. Without CSHP, I would not have had such an extensive opportunity to learn about hospital practice early in my degree and discover the pros and cons of the career.
